

FPAC is pleased to announce the launch of the Bio-pathways Partnership Network!

What is the Bio-pathways Partnership Network? It is a forum to build business-to-business relationships among companies interested in investing in new green innovations such as bio-chemicals, bio-energy and bio-products. The Network will bring together the forest industry and other sectors to establish partnerships for profitable new business ventures.

Why should I join/attend? There are a myriad of market opportunities to extract more value from wood fibre – one of Canada's abundant natural resources. For more details, visit www.fpac.ca/bio-pathways

Who should attend? Companies from the chemical, energy, pharmaceutical, auto, aerospace, rubber, and plastics sectors, technology providers, and others can all benefit from these bio-age opportunities.

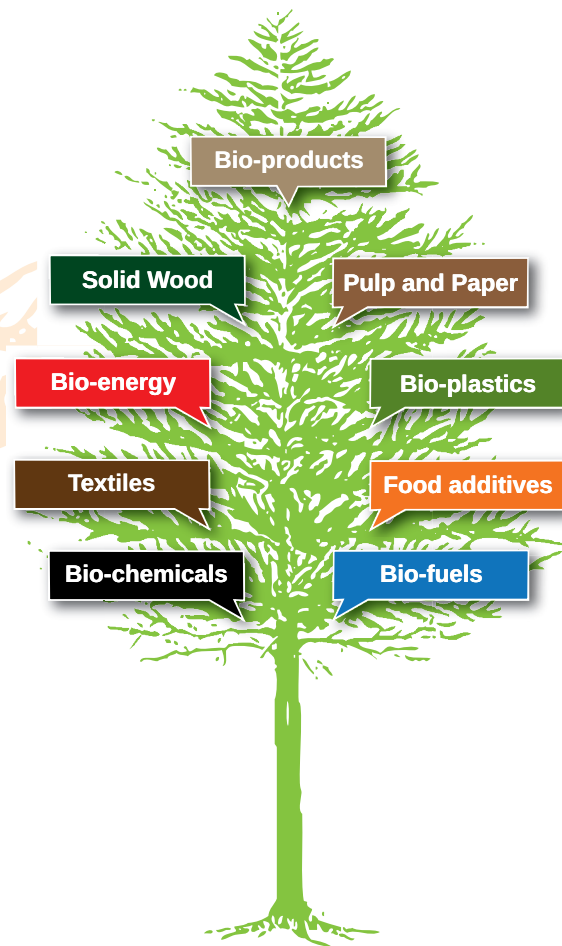

Where? Toronto, Ontario (exact location to be announced)

When? 8:00 am – 2:00 pm, Wednesday, March 9, 2011

How? RSVP to FPAC at:
Karen Edma
613-563-1441x345
kedma@fpac.ca

For more information,
