

Biomass Heating Systems: A Hands-On View From an Austrian Harvester, Owner, and Operator

Speaker: Felix Montecuccoli
CEO, Family Estate "Gut Mitterau" &
President, Association of Land & Forest Owners in Austria

Webinar Registration – Free Event
Event Date & Time: Thurs, June 9th, 2011 3:30-4:30pm (PST)

Join Felix Montecuccoli for an in-depth look at the Austrian experience of biomass based heating systems, including an overview of biomass based systems, forest resource management, harvesting methods, feedstock supply chain management, and system implementation.

Where: Online via LiveMeeting and Bell Conference Calling (must have access to internet and phone line)

Who's invited?: This webinar will appeal to those interested in supplying feedstock for, or implementing a biomass heating system (public/private energy users, community forests, private landowners, consultants...)

Registration Required by Wed, June 8, 2011
others, apologies for any cross-postings.
