

BC Bioenergy Network Announces Webinars to Provide Background Information for the RFEOI for Woody Biomass Combined Heat and Power Technologies for Remote Communities

Vancouver, British Columbia, September 2, 2011 – Following the invitation to technology developers to submit an expression of interest (“EOI”) for woody biomass combined heat and power (“CHP”) technologies suitable for remote communities, BC Bioenergy Network will host webinars to provide project specific background information.

The webinars will take place on from 10:00-11:00 PST on Monday, September 12th and again on Wednesday, September 14th. The webinar on September 14th will be a repeat of the 12th for interested parties who are unable to tune-in on Monday.

Webinar dial-in details will be provided on the BC Bioenergy Network home page (www.bcbioenergy.ca) by 09:00 Monday September 12th and will also be sent out by e-mail to the webinar list.

Interested parties are asked to provide their e-mail address to Dr Scott Stanners to be added to the webinar e-mail list. People who have already submitted an “Intent to Bid” form will automatically be added to the e-mail list.

We encourage you to share this information with relevant technology developers. Our apologies for multiple postings.

Regards,
Scott Stanners, PhD
