

RFEOI – Updated Documents on BCBid and September 14 Webinar

To BC Bioenergy Network Stakeholders,

Please check the [BCBid website](#) for additional information about the request for expressions of interest ("RFEOI") for woody biomass combined heat and power ("CHP") technologies suitable for remote communities.

- To access the RFEOI documents on BCBid: Click here: <http://www.bcbid.gov.bc.ca/open.dll/welcome>
- Then click 'Browse' for Bid Opportunities or Bid Results
- Then click 'Browse opportunities by organization'
- Click on 'BC Bioenergy Network'
- Click on '4159'
- On the top right, click on 'Supplier Attachments Exist'
- Click on each attachment to download.

BC Bioenergy Network will host a second webinar at 10:00 AM PST tomorrow, September 14, 2011, to provide background information about the Kwadacha First Nation demonstration project to parties interested in the request for expressions of interest ("RFEOI") for woody biomass combined heat and power ("CHP") technologies suitable for remote communities.

To participate in the RFEOI webinar:

1. Please download the webinar presentation [HERE](#)
or visit www.bcbioenergy.ca
2. For audio, please join the teleconference at 1-888-809-4060, Participant Code: 862741#

Our apologies for multiple postings.

Regards,

Scott Stanners, PhD
Director of Research
BC Bioenergy Network

About BC Bioenergy Network

Established in April 2008 with a \$25 million grant from the BC government, BC Bioenergy Network is an industry-led association that acts as a catalyst for deploying near-term bioenergy technologies and organizing mission-driven research for the development and demonstration of sustainable world class bioenergy capability in BC. Since inception, BCBN has made 21 investments that have a total project cost of nearly \$75 million. For more information about BCBN, please visit www.bcbioenergy.ca.
